# INDUBHAI PATEL COLLEGE OF PHARMACY & RESEARCH CENTRE

## ABOUT US

Indubhai Patel College of Pharmacy and Research Centre, was established in year 2006 with the vision to provide A health and community education in the vicinity of Charutar region, by Sanskruti Sanraksha Charitable Trust. This institute imparts high quality pharmacy education at Graduate, Post Graduate and Doctorate level with approved courses by All India Council For Technical Education (AICTE), New Delhi; Pharmacy Council of India (PCI), New Delhi and Affiliated to the Gujarat Technological University (GTU), Ahmedabad like B.Pharm (Bachelor of Pharmacy), M.Pharm (Masters of Pharmacy) and Pharm.D, (Doctor in Pharmacy) respectively.

Institute facilitate education with well-equipped laboratories, excellent infrastructure and adopted modern teaching techniques. Institute also houses state of art research facility and infrastructure to support Pharmaceutical Education and Research. The institute focuses on value added education, development of skill to students in addition to development of ethics and character. Approximately 10 batches of B. Pharm has been placed out and student have been placed in well reputed industries or institutions. Few students have gone abroad for further studies and have achieved excellence in their field.

## OUR VISION

To become center of excellence by providing quality education in the field of pharmacy and to produce competent and ethical pharmacist for the benefit of mankind.

## OUR MISSION

To impart the technical knowledge and multifaceted learning to develop skilled, ethical and life-long learners.

## PEO

1. To offer personalized and interactive teaching and counseling to students to produce skilled pharmacist.
2. To create a platform for job opportunities.
3. To update knowledge through organizing and attending seminars, workshops, conferences and industrial visits.
4. To encourage the students to develop life -long learning skill and entrepreneurship ability.

### **Late. Shree Indubhai Patel (IPCOWALA)**

**Indubhai Maganbhai Patel affectionately know as “INDUKAKA” latterly known for his generosity towards establishing better educational establishments and other fields of knowledge; was a visionary business man and entrepreneur.**

**In *Dharmaj* village he was first Pharmacist who had completed his *Bachelor of Pharmacy (B.Pharm)* from *L.M. College of Pharmacy, Ahmedabad.***

**Shri Indubhai Patel is famous as “BHAMASHAH” and in reality he make this word true by over flowing oodles of money in various field of Education, Health, Up-liftment of women, Research, Student Scholarship etc. His most famous venture is the establishment of the ‘creamy stuff’ - a better form of “snuff “ ( nicotine extract) having developed a special formula for the paste; thus “IPCO” was born!**

## ACADEMICIAN

**Dr. B N Suhagia**  
**Dean, Pharmacy Faculty,**  
**DDU, Nadiad.**

Warm greetings and wishes with pleasure on the release of the bi-annual magazine “SAMHITA” on completing 15 yrs. of laudable service in the field of Education.

I am happy to understand that the Indubhai Patel College of Pharmacy and Research Centre, Dharmaj is contributing to the need of Health care system, Pharmaceutical Industries, Research and Development and Pharma Education of the country, through its students who came out successfully.

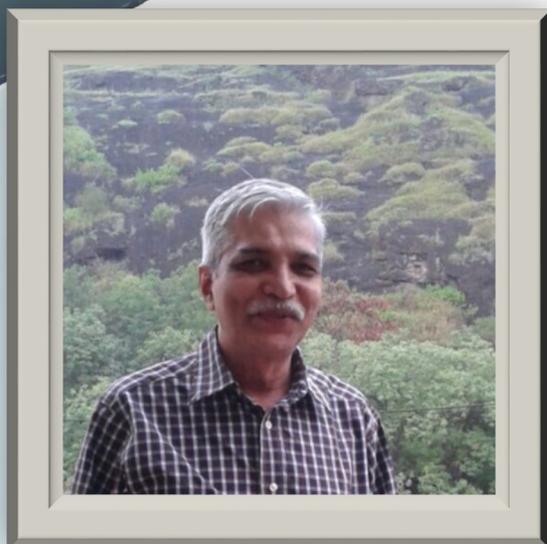

Gratefully I remember management, Principal and staff who worked hard to realize the vision of College and made tremendous efforts’ to make it grow into a center of excellence in academics and research.

I am also sure that this college magazine “Samhita-21” will represent technical and scientific talent hidden of the students and staff of the college to share their views.

I would likely to convey my heartiest wishes on the occasion of the release of said E-magazine.

## INDUSTRY REPORT

**Dr. Lal Hingorani**

Dear Readers, I congratulate the team of IPCPRC for the successful release of the third edition of “Samhita 21”. It is indeed admirable that within a short time, the institute has succeeded in organizing multifarious activities focused on overall development of students. Since its establishment in 2006, the institute has not only focused on academics, but has also laid equal focus on extracurricular, social initiatives and research.

The future of industrial growth of the nation significantly depends on the growth and development of the Pharmaceuticals sector. Gujarat has a huge opportunity in this sector as it is the pioneer state contributing significantly to the nation’s total pharmaceutical output.

Further, the sector is bound to grow exponentially in near future in view of the increased likelihood of epidemics and pandemics similar to the current COVID-19 crisis which we all are facing.

It is therefore necessary that we prepare ourselves for the future opportunity by enhancing the skills of our students and creating a larger group of trained and qualified workforce to adequately cater to increased demand.

I am glad to know that IPCPRC is already working in this direction and is rapidly working towards becoming the premier centre of academic and technological excellence in the pharmaceutical education.

I congratulate the IPCPRC Team and convey my best wishes to all the students, faculty and other members affiliated to the institute.

## PARENT REPORT

### **Mr Jayeshkumar Rameshchandra Brahmbhatt**

**To the administrators and faculty members of IPCPRS..: I being a parent have learned that "Unlike other institutions, this institute allow students to initiate". With the each passing in this educational academy, she (my daughter) is learning and experiences through our mistakes and achievements which is impossible without such faculties and teaching staff that never denied the students to grasp such opportunity to initiate changes, initiate conversation, initiate an idea that could make a difference. Thank you for allowing my daughter as students herein to make mistakes, supporting her efforts, and celebrating her accomplishments. In this day and age, it is where one can break her mold, her cookie-cutter idea, and let herself become, quite simply, what she chooses to be. For that, I being her father is grateful to IPCPRC for providing such pleasant sets that molds the student here in to a "INTEGRAL PROFESSIONAL DOCTOR OF PHARMACY"**
